Greatify

ExamX

Every exam. End to end.

One platform sets, delivers, proctors and grades your exams, on campus or online. AI does the heavy lifting. People make every decision.

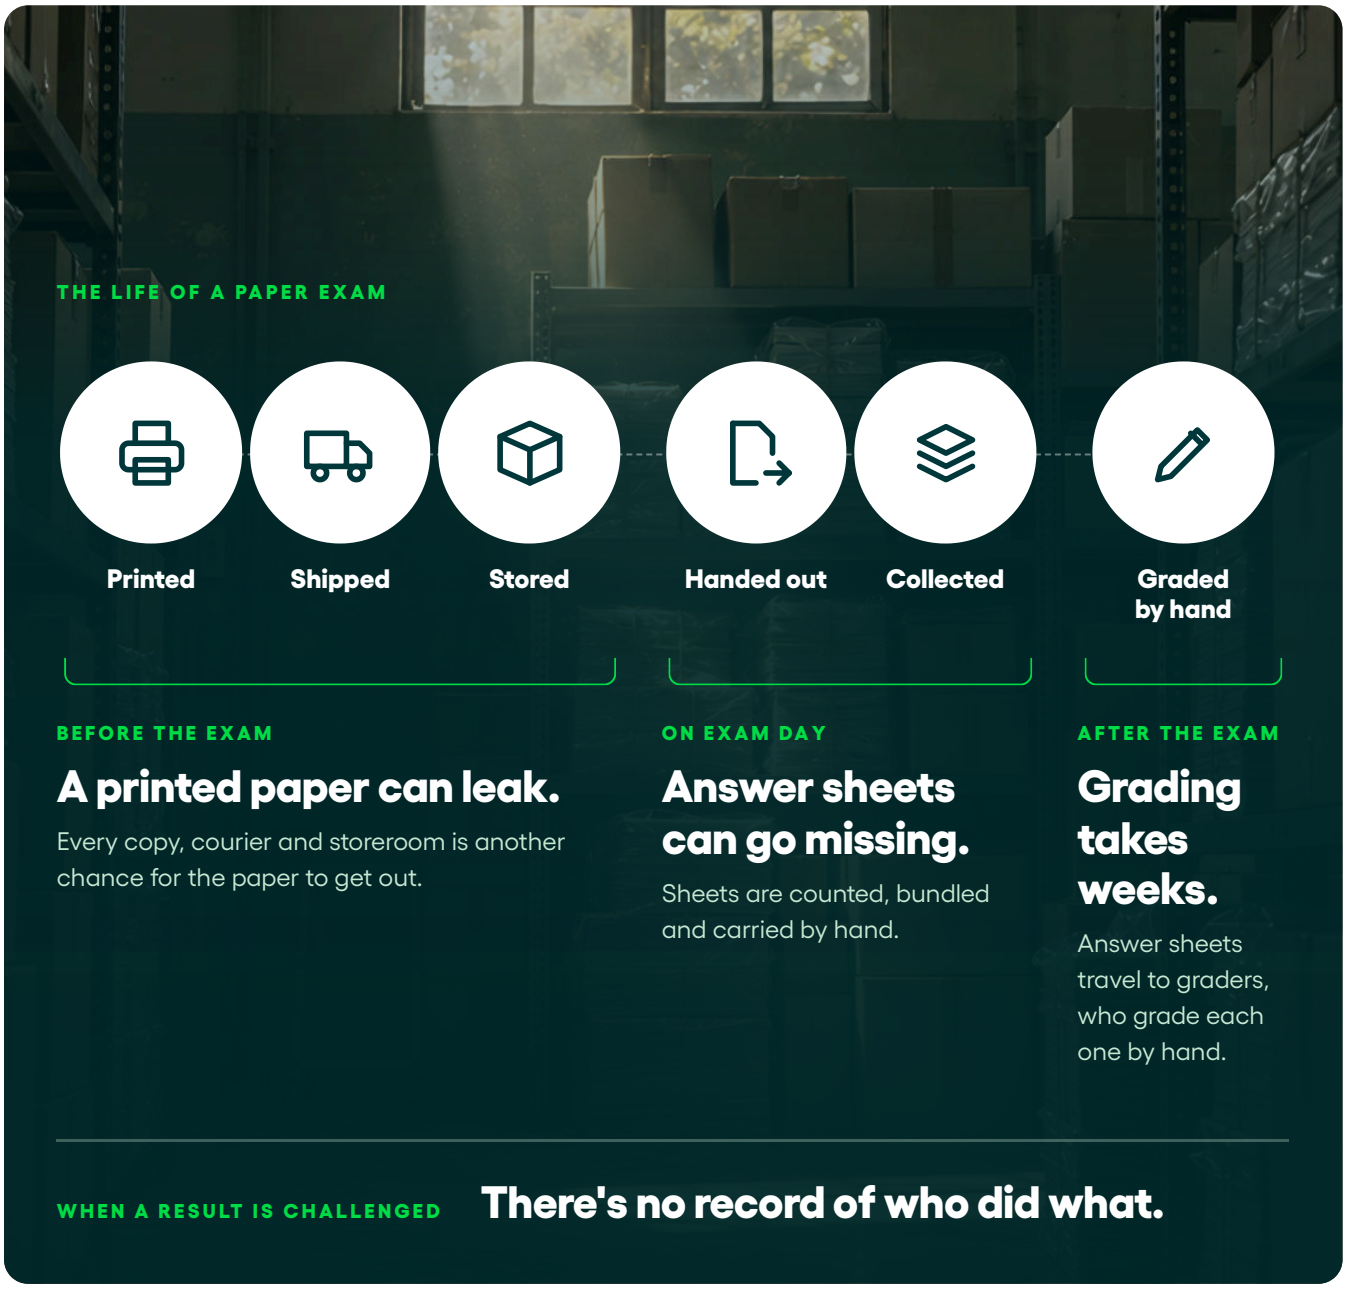

On campus | Online | Handwritten | Typed

greatify.ai

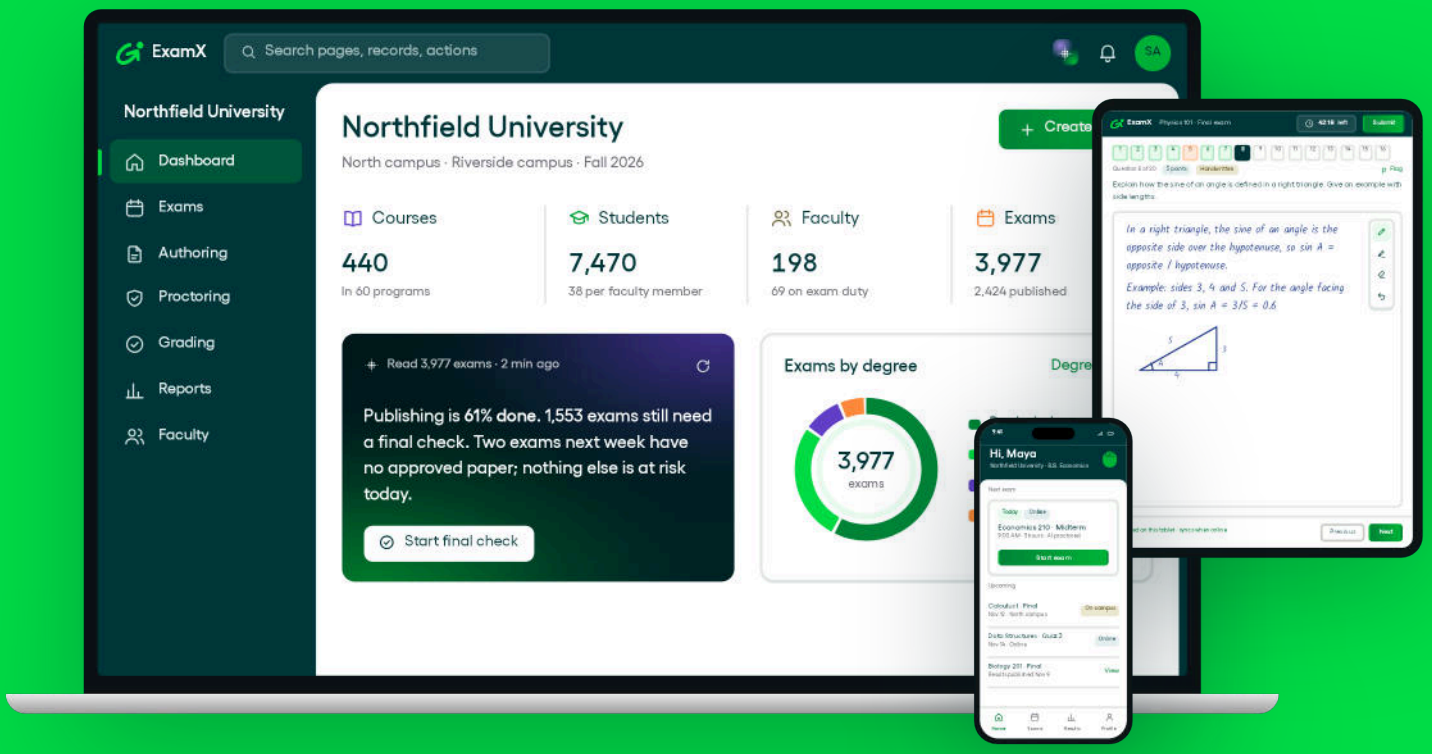

Exams decide degrees, jobs and licenses, yet most still run on paper and trust.

A paper exam is printed, shipped, stored, handed out, collected and graded by hand. Each step is a chance for a leak, a delay or a lost answer sheet. Computer labs fix some of that, but they can't capture a handwritten proof, and a hijacked lab computer is a new way to cheat.

ExamX runs the whole exam on one platform, with AI at every step and a person at every decision.

ExamX by Greatify is an AI-native examination platform. It writes question papers, delivers exams securely on tablets, laptops and phones, proctors them with AI, and grades typed and handwritten answers. Universities, exam boards, employers and schools use it for exams on campus and online.

NEARLY
500,000
exams delivered

ABOUT
50,000
students

20+
universities

7,000
students writing at once

Every one of those exams ran without data loss, a paper leak or a security incident.

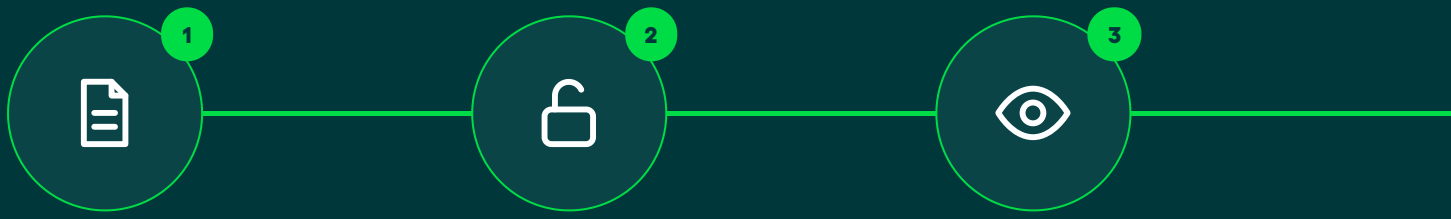

HOW IT WORKS

Every exam runs through five steps. ExamX runs all five on one platform.

On paper, each step is a separate job with its own people, files and risks. ExamX joins them up, on campus or online: AI does the repetitive work at every step, and a named person makes every decision.

BEFORE THE EXAM

DURING THE EXAM

Author

✕ TODAY

Setters type papers in a word processor, and reviewers check them by email.

✓ WITH EXAMX

AI drafts the paper from your syllabus, and your reviewers approve it in one place.

SECTION A · PAGE 8

Deliver

✕ TODAY

Papers are printed, sealed and shipped to every hall.

✓ WITH EXAMX

The paper unlocks only when the exam starts, on tablets, laptops or phones.

SECTION B · PAGE 12

Proctor

✕ TODAY

Proctors walk the rows and note incidents on paper.

✓ WITH EXAMX

AI checks identity and watches every session, and a proctor reviews every flag.

SECTION B · PAGE 18

A named person signs off anything that affects a student, and the record shows who and when.

AFTER THE EXAM

4

Grade

✕ TODAY

Answer sheets are bundled, mailed and graded by hand over weeks.

✓ WITH EXAMX

AI scores typed and handwritten answers against your rubric, and faculty confirm or change every grade.

SECTION C · PAGE 20

5

Report

✕ TODAY

Grades are typed into spreadsheets and checked twice.

✓ WITH EXAMX

Results, analytics and accreditation evidence come from the same records.

SECTION C · PAGE 22

NEXT

How AI and people share the work

AI drafts the paper, watches the session and proposes grades. A named person approves, reviews and confirms each one.

PAGE 6 →

HOW EXAMX USES AI

AI does the heavy lifting, and your people make every decision that counts.

ExamX uses AI where it saves hours and leaves judgment to people. AI drafts papers, watches sessions and proposes grades. A named reviewer approves each paper, decides each flag and confirms each grade, and the record shows who decided and when.

	WHAT AI DOES	WHAT A PERSON DECIDES
Author	Drafts questions from your syllabus and checks coverage.	**Reviews, edits and approves the paper before release.**
Proctor	Flags identity and integrity issues as they happen.	**Reviews every flag before anything happens to a student.**
Grade	Proposes points against your rubric, with a reason for each.	**Confirms or changes every grade.**
Report	Summarizes results and spots weak questions.	**Publishes results.**

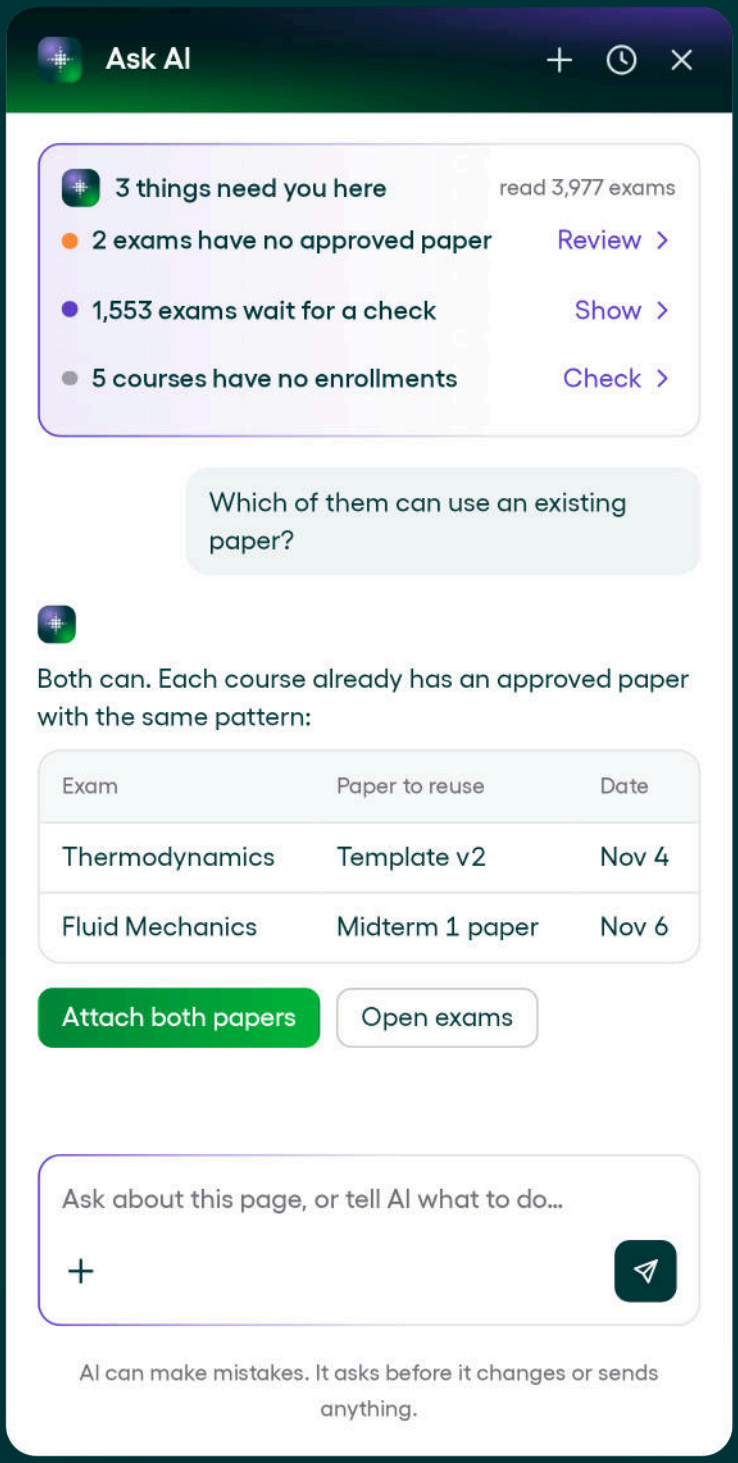

Every decision that affects a student is signed off by a named person.

ASK AI

Ask AI works inside ExamX. It reads your exams, answers questions in plain language and suggests the next step. It asks before it changes or sends anything.

PEOPLE ASK

- Which exams have no approved paper?
- Compare results across the two campuses.
- Draft the results notice for Biology 201.

A

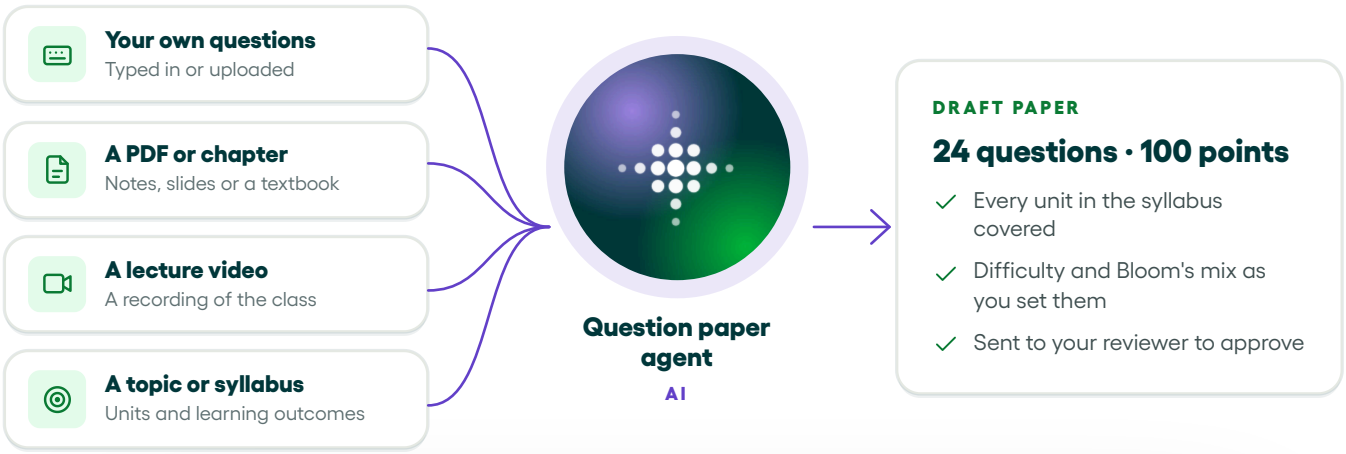

SECTION A · BEFORE THE EXAM

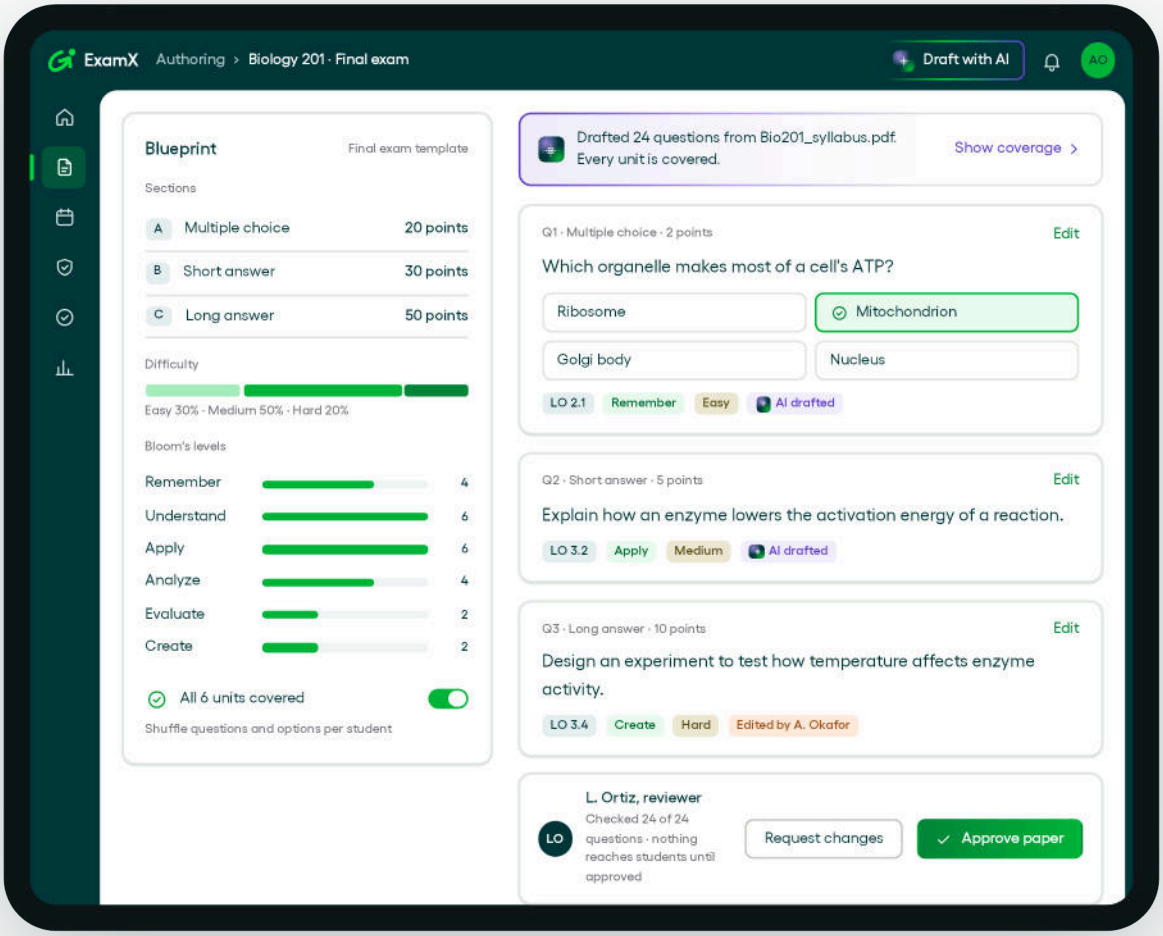

Set the paper from your syllabus, with every question mapped to a learning outcome.

Upload a syllabus, a chapter or a lecture video. ExamX drafts questions at the difficulty and Bloom's levels you ask for, checks that the paper covers the syllabus, and sends it to your reviewers. Nothing reaches a student without a named sign-off.

START FROM A syllabus | A chapter or PDF | A lecture video

FROM YOUR MATERIAL TO A PAPER

Up to 20 question types

Multiple choice to coding, with a formula editor for math.

Setting and approval workflows

Setter, reviewer and approver each sign off, and every version is kept.

Automatic enrichment and tagging

Topic, difficulty, Bloom's level and outcome on every question.

Knowledge graph

Questions linked to topics and outcomes across the whole bank.

Blueprints and templates

Fix sections, points and difficulty once, then reuse them.

Shuffled for each student

Question and option order change per student.

A

Build a question bank once and reuse it every term, tagged to what students should learn.

Every question carries its topic, difficulty, Bloom's level and the learning outcomes it tests. Blueprints fix how many points come from each unit and level, so every paper is balanced before a reviewer sees it.

Q-1042 · SHORT ANSWER · 8 POINTS — BIOLOGY 201

A red blood cell is placed in salt water. Predict what happens to it and explain why.

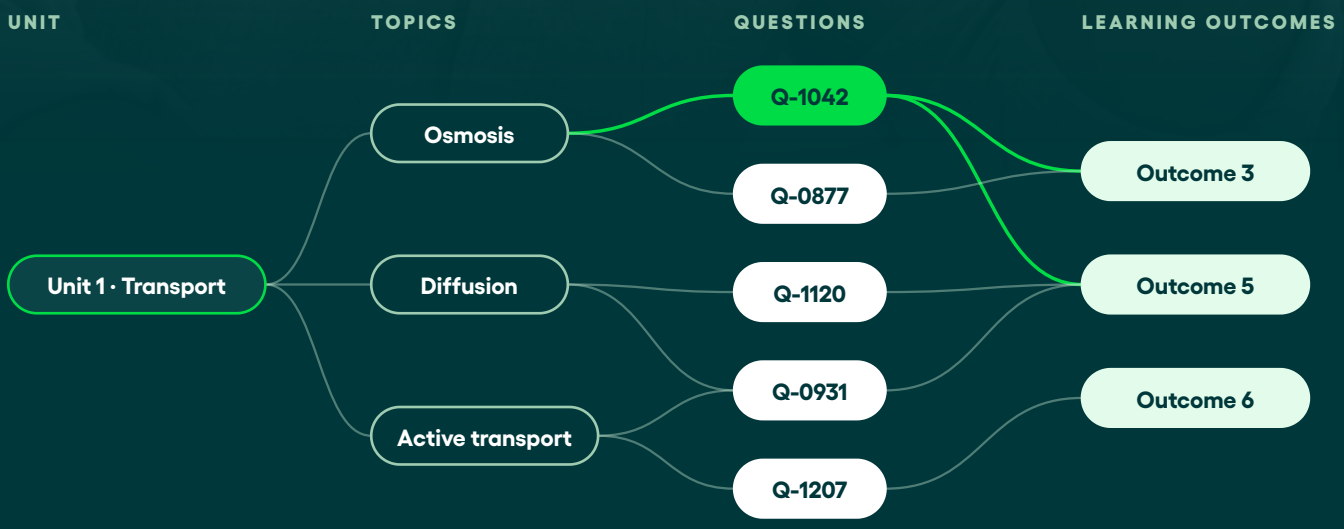

Topic	Unit 1 · Osmosis
Difficulty	Medium
Bloom's level	Apply
Learning outcomes	Outcome 3 · Outcome 5
Reuse	Used in 3 exams · approved by the Biology reviewer

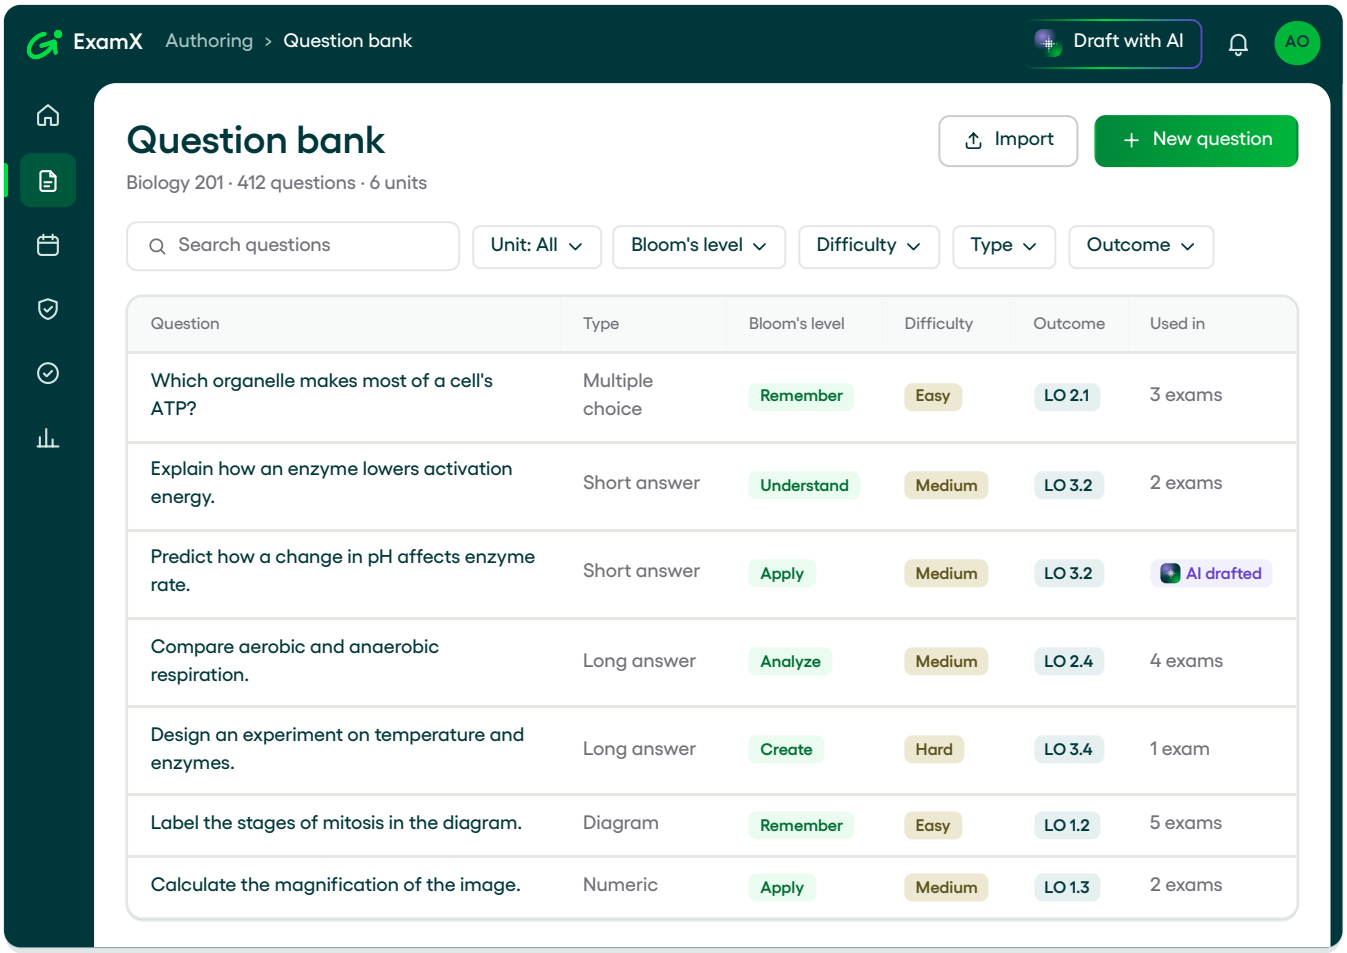

Tagged by AI, checked by L. Ortiz

tagged once, reused every term

KNOWLEDGE GRAPH

Every question is linked to its unit, topics and learning outcomes, so you can see how well each outcome is covered across the whole bank.

Blueprint coverage ✓ Covers every unit

Points by unit and Bloom's level · Biology 201 final · 100 points

	Remember	Understand	Apply	Analyze	Evaluate	Create	Points
Unit 1 · Cell structure	4	4	2	2			12
Unit 2 · Energy	2	4	6	2	2		16
Unit 3 · Enzymes	2	4	6	4	2	4	22
Unit 4 · Genetics	4	4	4	2	2	2	18
Unit 5 · Evolution	2	4	2	4	2	2	16
Unit 6 · Ecology	2	4	4	2	2	2	16

2 points · 4 points · 6 points

Checked against the syllabus before release

> **The Paperless Question Bank has made our question paper preparation faster, easier, and fully digital. With subject and CO tagging, questions are simple to store, search, and reuse without manual effort. The one-time setup, improved Excel bulk upload, and auto-generation features have saved significant time and reduced paper creation work by nearly 80%.**

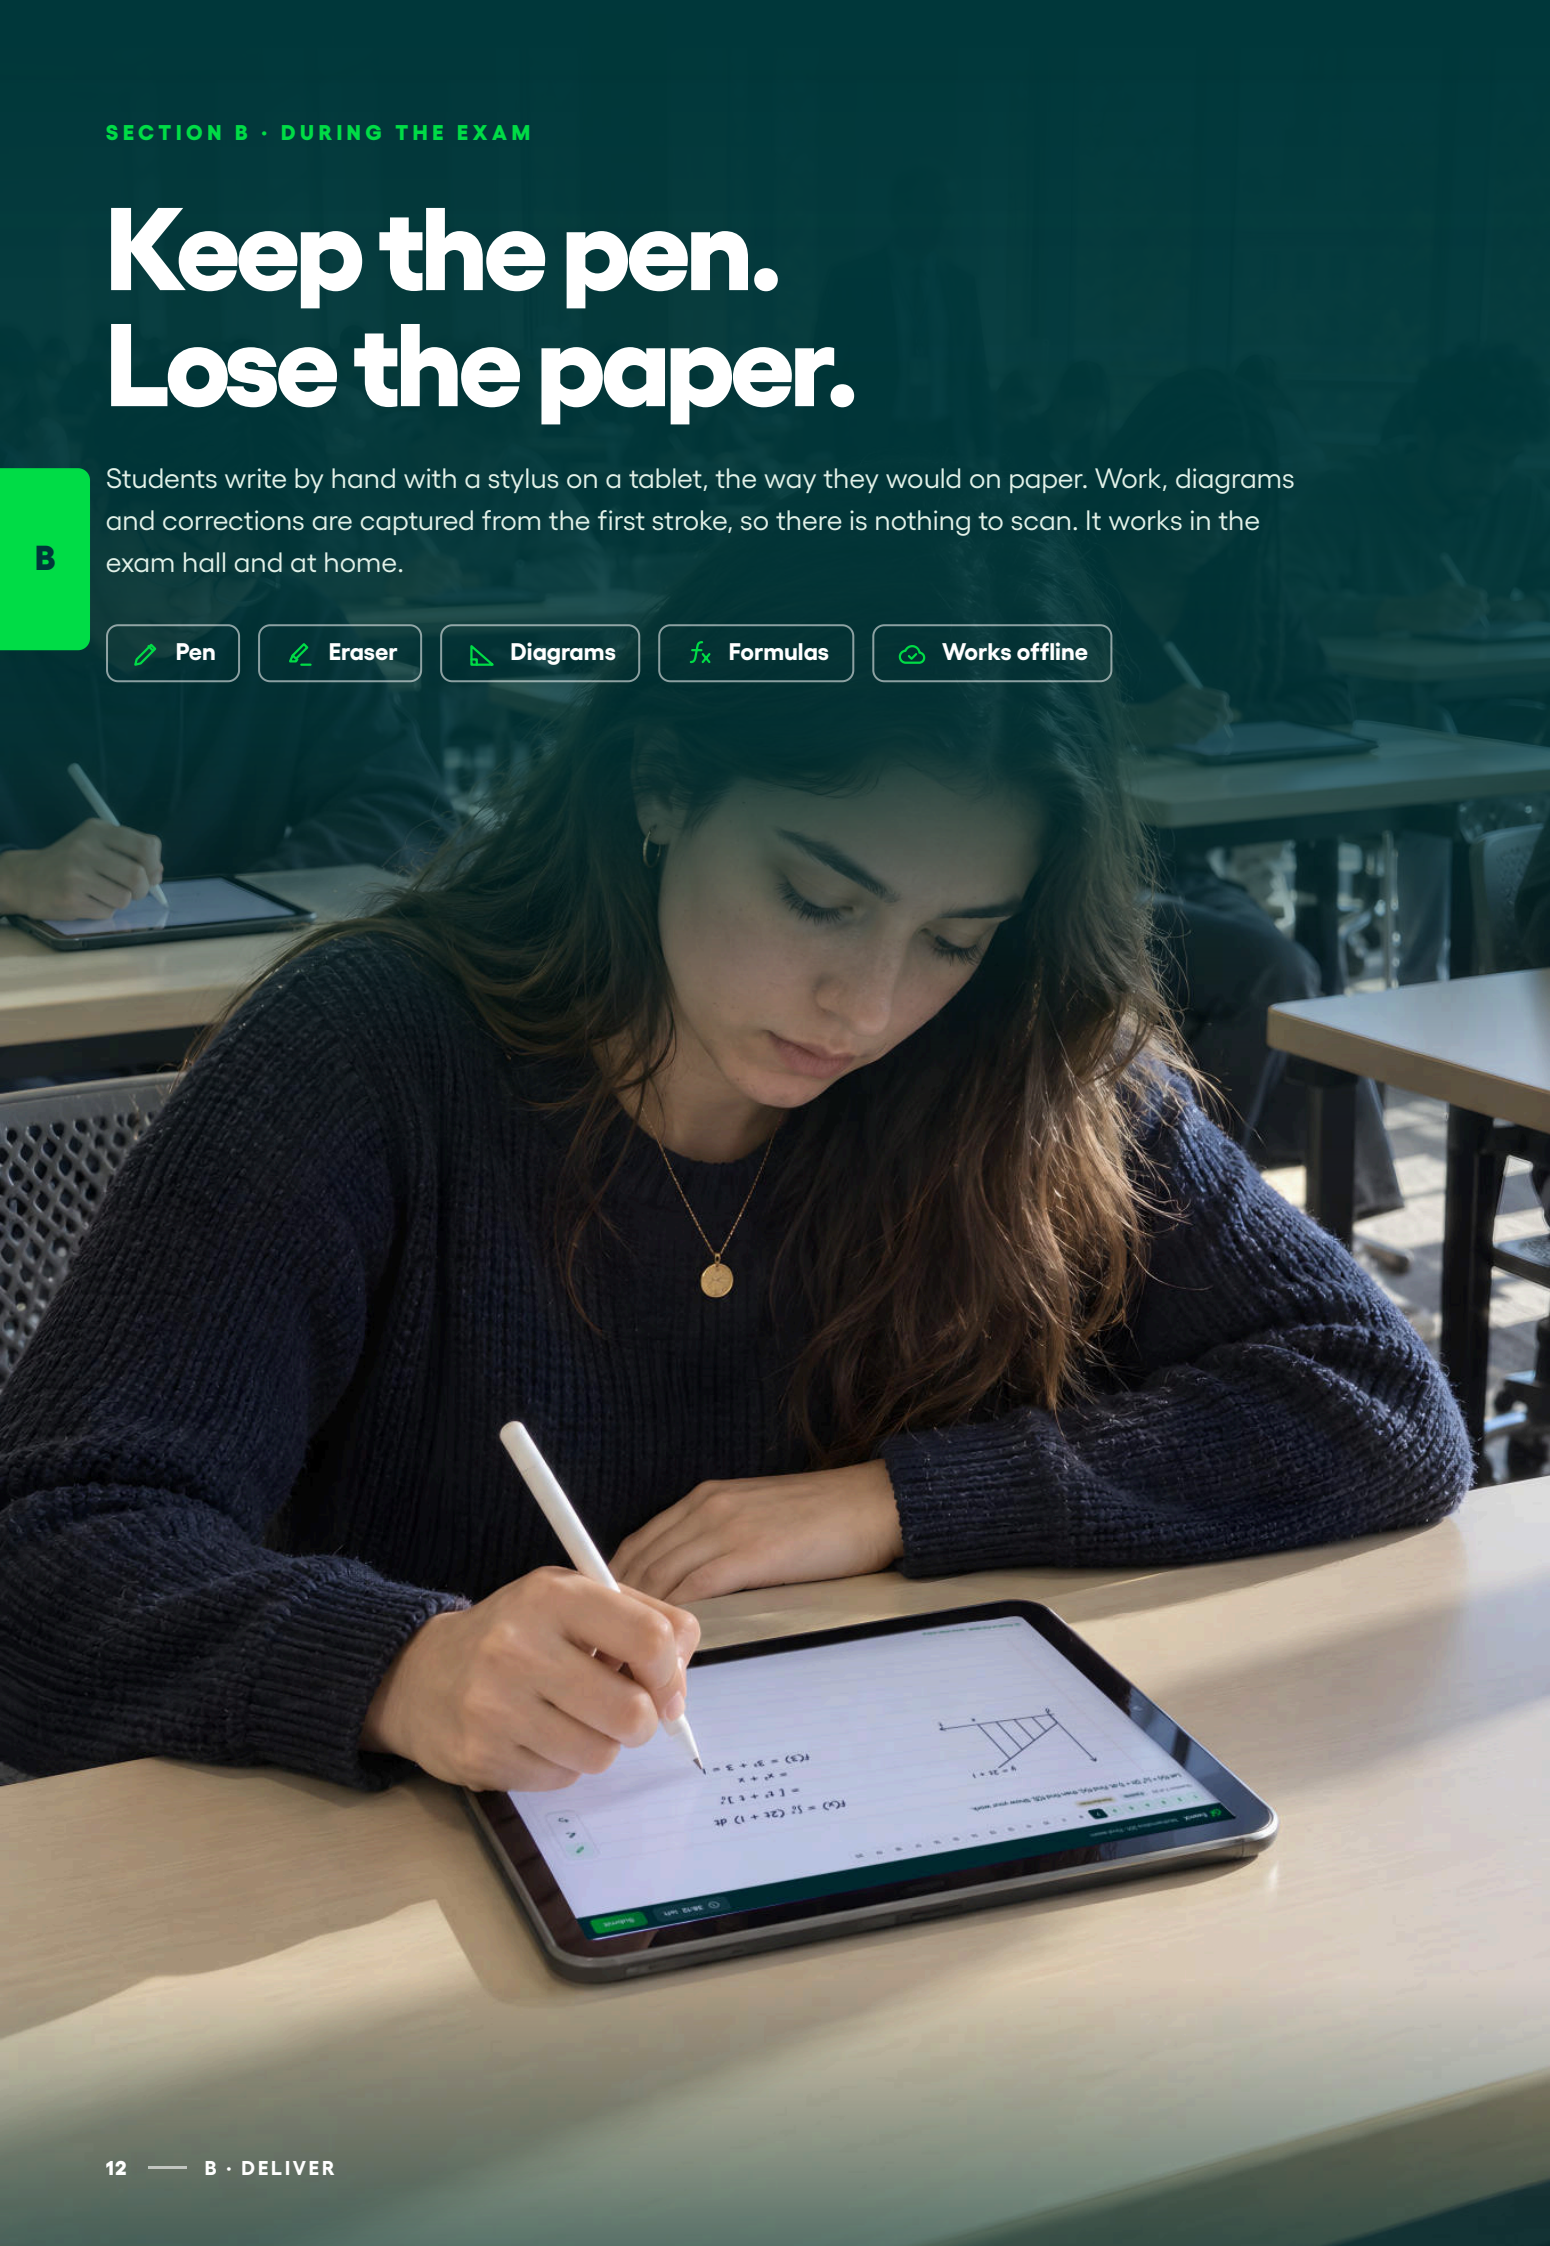

CONTROLLER OF EXAMINATIONS, COLLEGE

Keep the pen. Lose the paper.

B

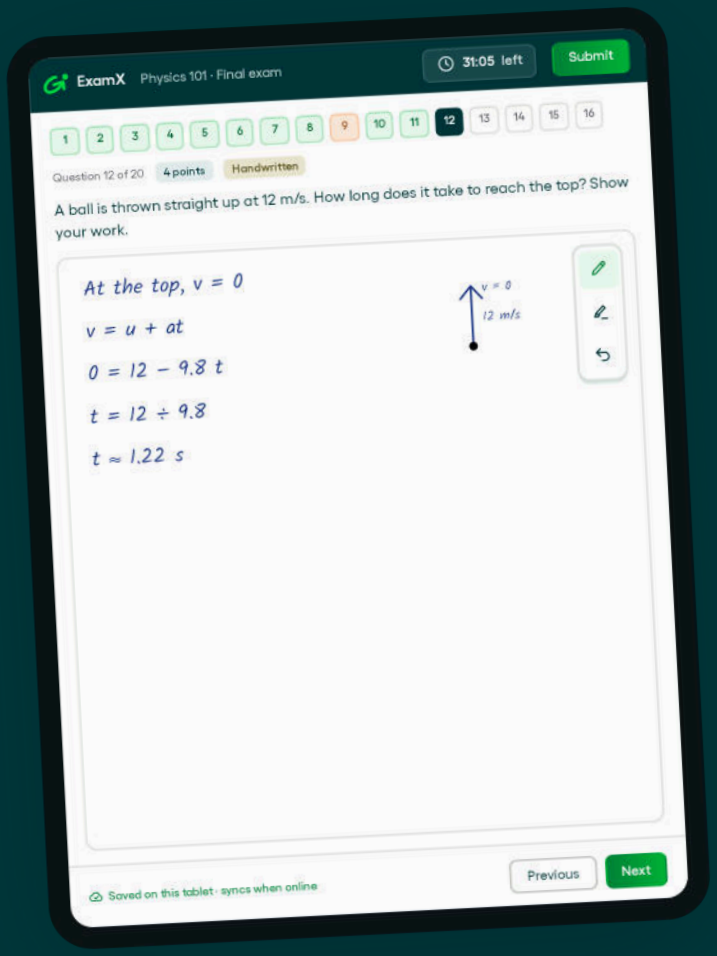

Students write by hand with a stylus on a tablet, the way they would on paper. Work, diagrams and corrections are captured from the first stroke, so there is nothing to scan. It works in the exam hall and at home.

Pen | Eraser | Diagrams | Formulas | Works offline

HANDWRITTEN ANSWERS

Handwriting is digital from the first stroke, with nothing to scan.

Pen, eraser and undo
Students write, draw and correct the way they would on paper.

Diagrams and formulas
Work, sketches and math are kept exactly as written.

Saved on the tablet
Answers save as students write and sync when the network allows.

Ready to grade in minutes
Graders see each answer as written, about 10 minutes after the exam ends.

ON CAMPUS

On a tablet in the exam hall

Our tablets, or yours, managed and locked to the exam. See page 14.

ONLINE

On a student's own tablet

At home or in a lab, alongside typed and coding answers. See page 16.

> **The iPad examination system is easy to use, convenient, and saves time. It provides a smooth exam experience with clear navigation.**
>
> MBA STUDENT

Use our tablets, your tablets or the devices students already own.

However the exam runs, the platform and the records are the same. Choose a model for each exam, or mix them across campuses.

B

1

Our managed fleet

We bring charged, locked tablets and a crew that supports every device until the last answer syncs. Then every device is wiped.

2

Your institution's fleet

We set up, update and lock the tablets you already own, run the exam and wipe them afterward.

3

Students' own devices

Students take the exam on their own tablet, laptop or phone, with the secure ExamX app or browser.

About

10,000

tablets managed in a single exam day

ONE EXAM CYCLE

90

days of exams with zero disruptions

10

campuses running the same exam at the same time

- Apple and Android tablets with a stylus
- Assessment lockdown blocks other apps, screenshots and dictation
- Face match at login
- Works offline and syncs when connected

Tablets arrive charged in carts, updated and locked to the exam.

> **The iPad-based examination system provided a smooth, efficient, and user-friendly experience throughout MTech CSE examinations. The interface was intuitive, responses were easy to review, and the system ensured a secure and hassle-free assessment process.**
>
> FACULTY, COMPUTER SCIENCE AND ENGINEERING

Online exams run on any device, on campus or at home.

Students use a tablet, laptop or phone, in a lab or at home. They check their device and camera, then start at the scheduled time. For flexible exams and retakes, they book a slot that suits them. Answers save as they go, so a dropped connection doesn't cost a student their work.

B

Scheduling
Time-slot booking and batch scheduling for large cohorts.

Device check
Camera, microphone and network tested before the exam.

Low bandwidth
Works on weak connections.

Every answer type
Handwriting on a tablet, typed, coding, multiple choice and uploaded pages in one session.

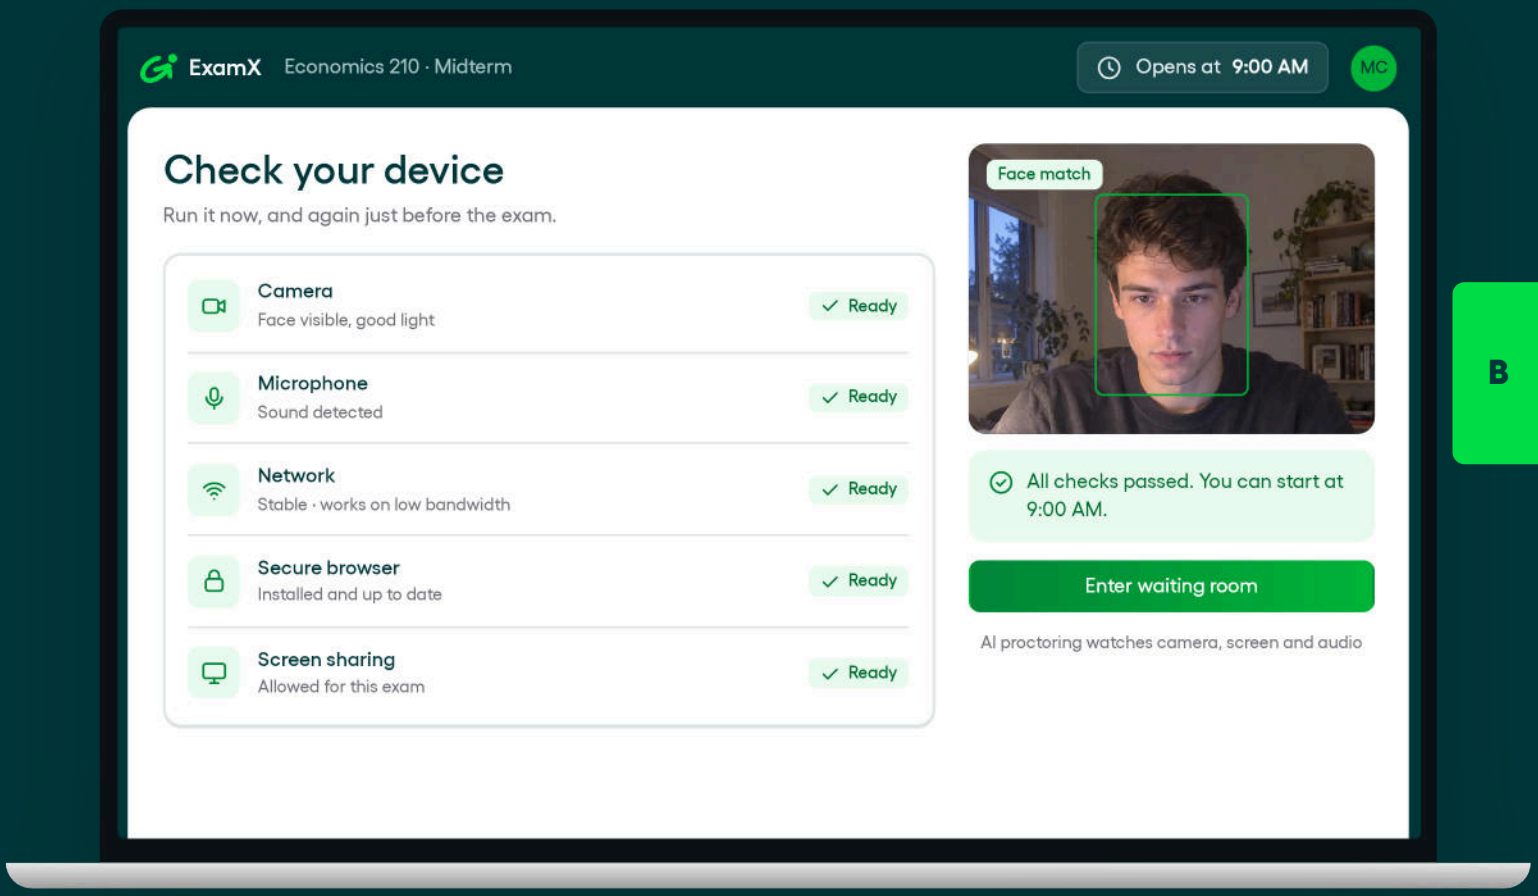

Secure browser
Lockdown on laptops and desktops.

AI proctoring
Three modes, chosen by how high the stakes are.

Device	Handwriting	Typed and code	Works offline	Lockdown	Proctoring
Managed tablet	Stylus	Yes	Yes	Full	Face login and session recording
Laptop or desktop	Upload	Yes	Low bandwidth	Secure browser	Camera, screen and audio
Phone	Upload	Typed	Low bandwidth	Limited	Camera and audio

ⓘ A phone's web browser can't be fully locked down, so high-stakes papers use managed tablets, a secure browser on a laptop, or a live proctor.

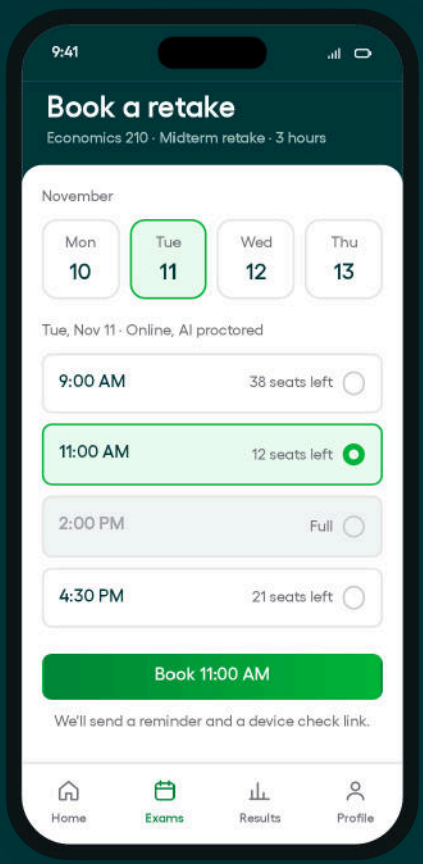

B

1 **Check the device and camera.**

2 **Start at the scheduled time.**

3 **For retakes, book a slot that suits you.**

B

Sealed.

Papers stay encrypted until the exam starts and open only on registered devices.

Watched.

A face match at login, then AI watches camera, screen and audio for the whole session.

Reviewed.

A person reviews every flag before anything happens to a student.

Recorded.

Every unlock, flag, decision and grade is logged with who did it and when.

0

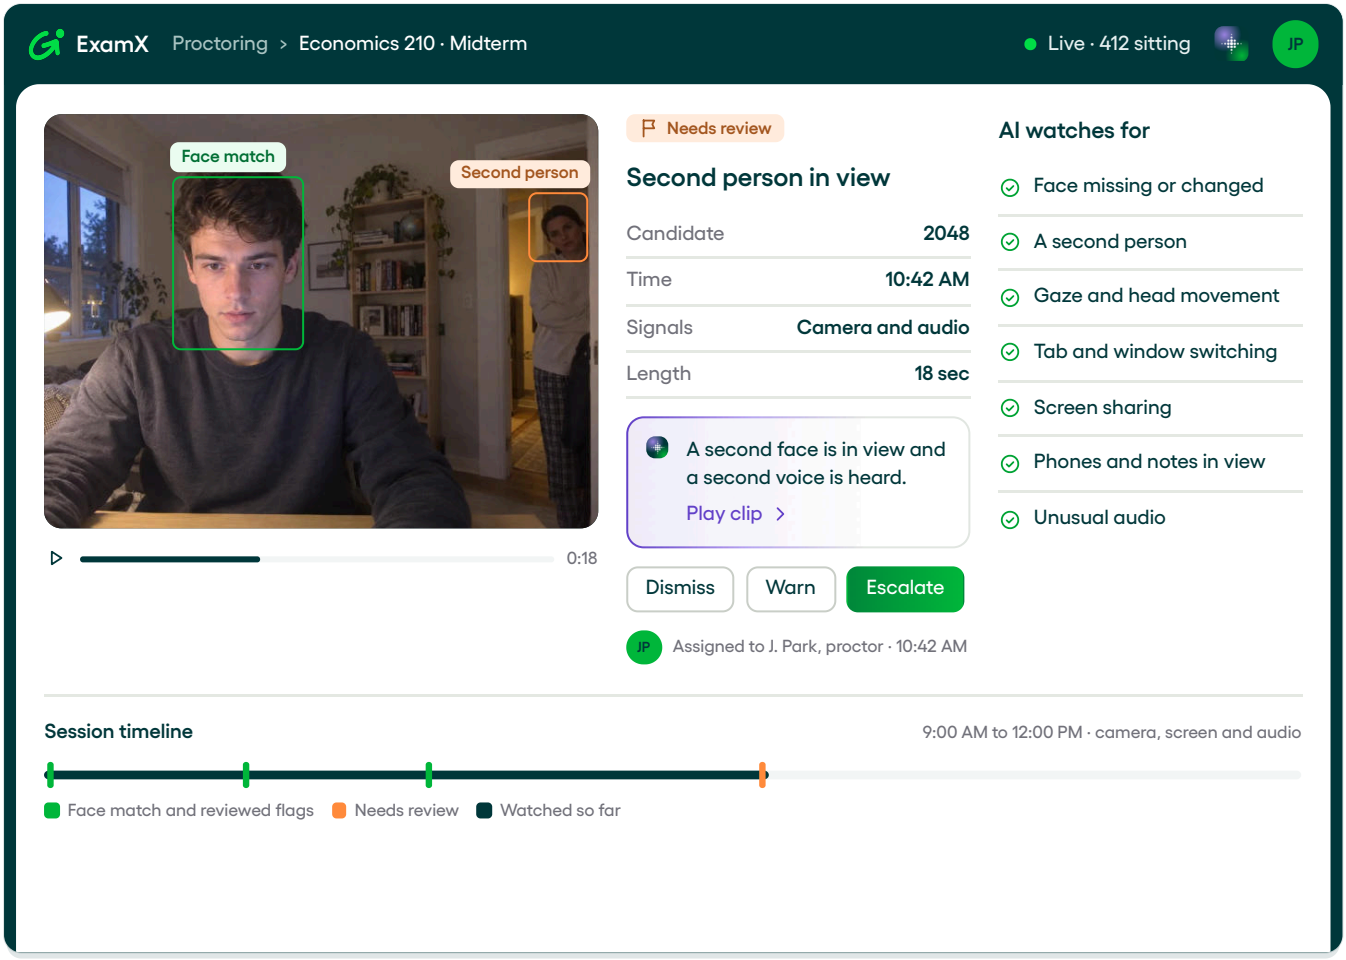

security incidents across nearly 500,000 exams.

THREE PROCTORING MODES

AI only

AI with a live proctor

Record and review

B

Audit log

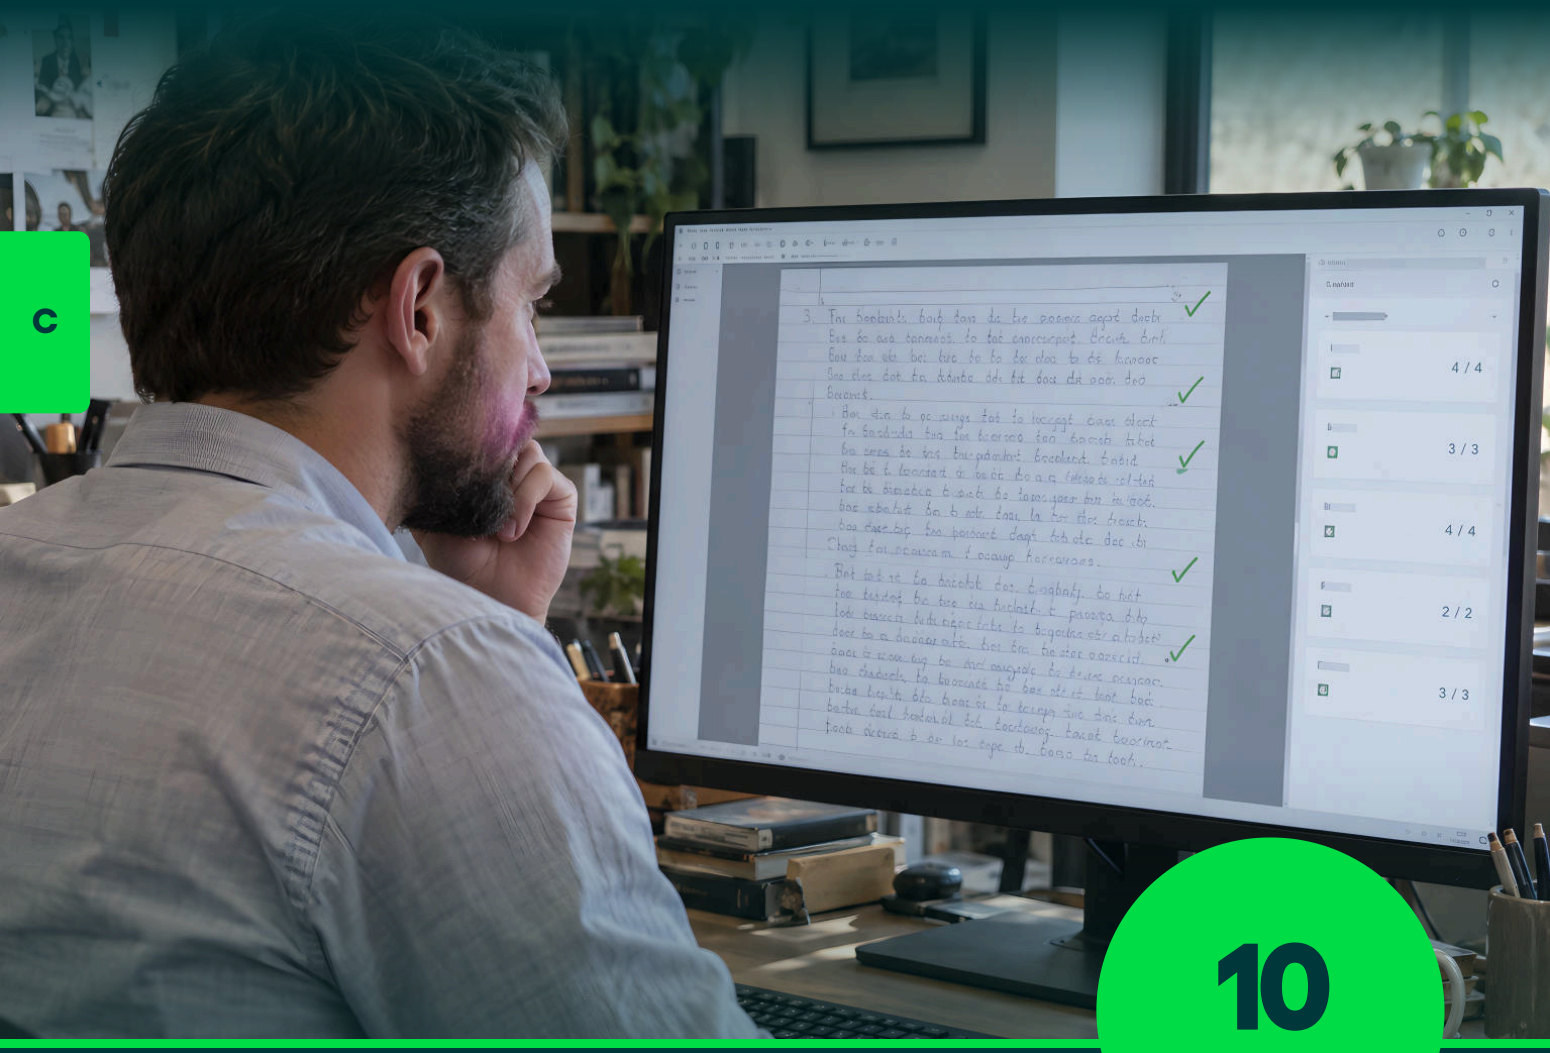

Time	Event	By
08:59:58	Paper unlocked on a registered device	**System**
09:00:41	Face match at login	**AI**
10:42:18	Flag raised: second person in view	**AI**
10:44:02	Flag reviewed, candidate warned	**J. Park, proctor**
16:20:15	Grade confirmed for question 4	**M. Chen, grader**

Data hosted in your region · ISO 27001 and SOC 2 certified · GDPR and DPDP compliant

SECTION C · AFTER THE EXAM

AI reads every handwritten answer, and faculty still decide the grade.

C

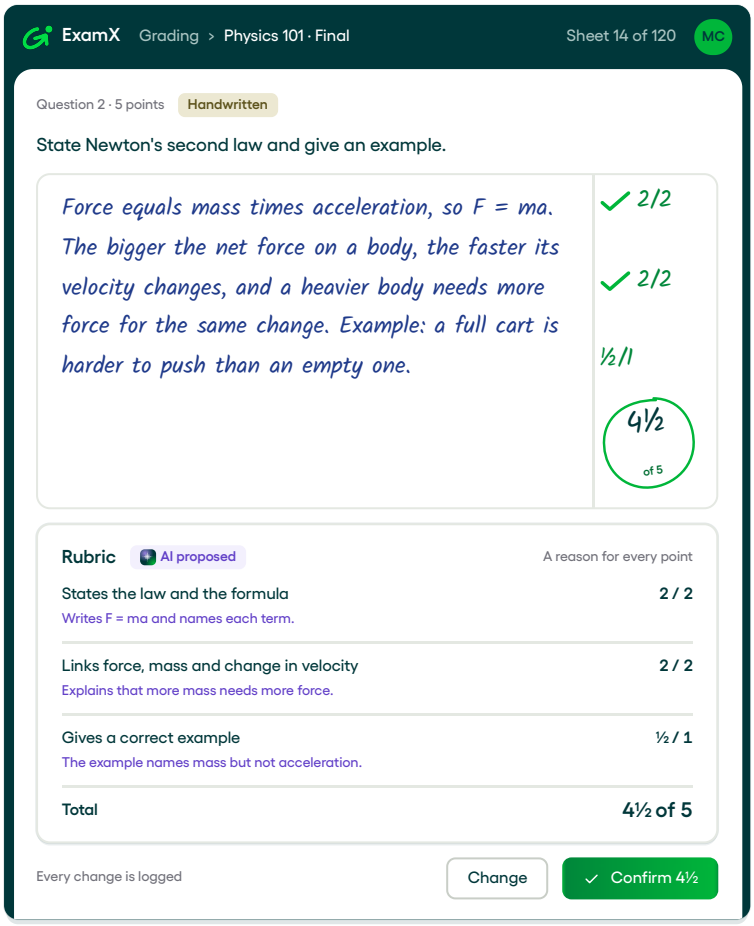

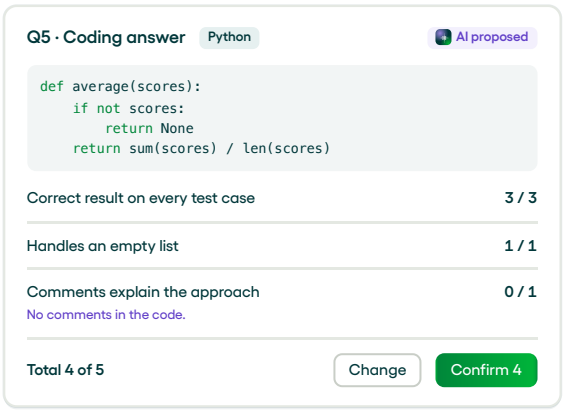

10
MINUTES

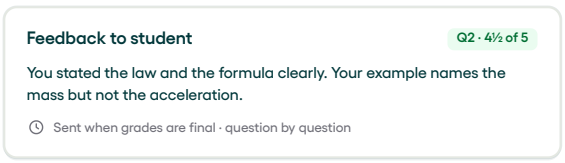

from the end of the exam to answer sheets ready for grading.

1. Answer sheets arrive ready to grade, typed and handwritten, with nothing to scan.
2. AI scores each answer against your rubric and gives a reason for every point.
3. Graders confirm or change each grade, and every change is logged.
4. Every student gets feedback, question by question.

> **The system makes conducting and evaluating exams more efficient and organized. It reduces paperwork, improves accuracy, and supports a modern, eco-friendly examination process.**
>
> FACULTY, MANAGEMENT STUDIES

C

Second opinions, moderation and feedback are built into grading.

Split a script across graders by section, send a sample for moderation, and compare graders on the same answers. When grades are final, every student gets feedback on each question.

Allocation by section
Split each script across graders by section.

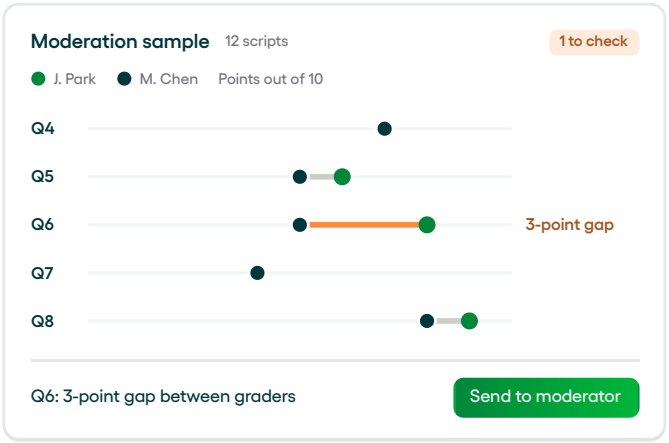

Auto-scored, kept out of view
Auto-scored questions are hidden from graders.

Double grading
Re-evaluation and second graders when you need them.

Moderation samples
Compare graders on the same answers.

On-screen annotation
Graders mark directly on the answer.

Feedback for every student
Question-by-question feedback when grades are final.

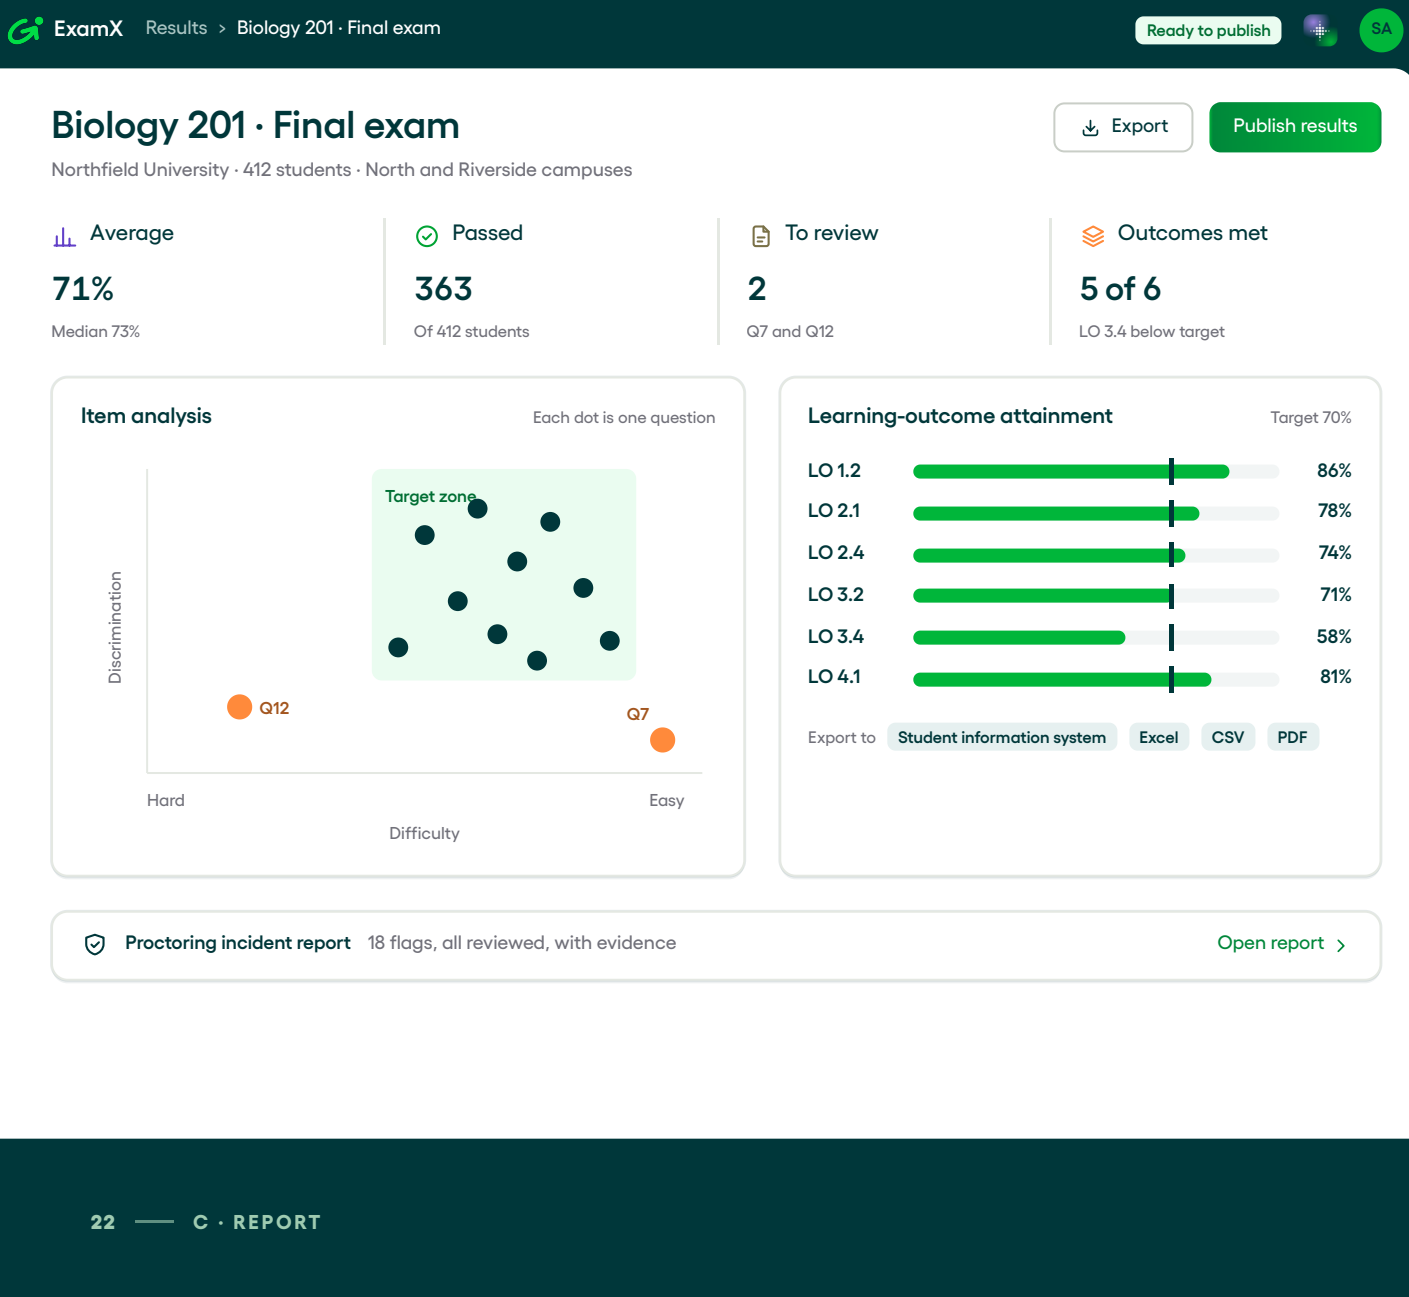

SECTION C · AFTER THE EXAM

Results your registrar can publish and your accreditor can read.

Every grade, flag and decision sits in one system, so reports come from the same records you examined with. Nobody retypes grades into a spreadsheet.

- Live exam dashboard
- **Item analysis** (difficulty and discrimination for every question)
- Learning-outcome attainment
- Proctoring incident reports with evidence
- Exports to your student information system, Excel, CSV or PDF

C

See the whole exam cycle in one place, from registration to results.

The exam office sees what's done, what's due and what needs a decision, for every program and campus. When something is late, it shows up before it becomes a problem.

Certified and compliant
ISO 27001 · SOC 2 · GDPR · DPDP

ACCESS AND AUDIT

Every role sees only its part, and every action is recorded.

WHAT A BROWSER CAN'T LOCK

A phone's web browser can't be locked down the way a managed tablet can, so we tell you which controls apply to each device before you choose a mode.

Built for every organization that runs exams.

Universities and colleges

THEIR RISK

Weeks of printing, moving and grading every term, and accreditation evidence rebuilt by hand.

WHAT EXAMX DOES

Semester exams on campus tablets, online programs on any device, and outcome reports from the same records.

Usual mode · Campus and online

Exam boards and government

THEIR RISK

One leaked paper can cancel an exam for an entire cohort, and rented exam-center computers are a way in for cheating.

WHAT EXAMX DOES

No printed paper, papers encrypted until the start, locked managed devices, and a full audit trail and grievance record for every candidate.

Usual mode · Venues, plus online screening rounds

Every sector's exam ends in an answer sheet, typed or handwritten. The risks differ, so the mode and the controls differ too.

Employers and certification bodies

THEIR RISK

Proxy candidates, shared answers and unfair flags during short hiring seasons.

WHAT EXAMX DOES

Proctored online tests at scale, coding questions, walk-in hiring days run by our crew, and a defensible record for every certificate.

Usual mode · Online and on site

Schools

THEIR RISK

Teachers lose evenings to setting and grading, and parents get a grade without the detail behind it.

WHAT EXAMX DOES

Tests set in minutes from the syllabus, grading with teachers in control, and reports parents can read.

Usual mode · In school and at home

PROOF AT SCALE

Not one paper leaked.

Nearly

500,000

exams delivered

20+ universities and their students, on campus and online.

Quotes in this brochure come from students, faculty and examination staff at ExamX customers, shared without names at their request. Some are shortened.

HOW TO START

Start with one exam and judge ExamX on your own students.

1 **Share your exam calendar.**

Tell us which exams, how many candidates and where they sit.

2 **Run one exam with us.**

We set up the platform, train your staff and run it alongside you.

3 **Roll out.**

Add programs, campuses and exam types term by term, on the same bank and records.

Staff training, support at every exam and an on-site engineer during rollout.

Choose who owns the devices. The platform is the same in every model.

Four ways to run ExamX, from fully managed on campus to fully online. Pick one for each exam, or mix them across campuses.

FULLY MANAGED → FULLY ONLINE

	Managed tablets on campus	Your tablets, managed by us	Your devices, our software and crew	Online only
DEVICES Who owns them	Our tablets, parked on campus or brought in for each exam	Your tablets	Owned by students or the institution	Students' own laptops, desktops or phones
DEVICE CARE Setup, updates and wiping	We set up, update and wipe them	We set up, update and wipe them	Our secure app on your devices	Our secure browser on laptops and desktops
EXAM DAY Our crew's role	Our crew sets up and supports every device	Our crew sets up and supports every device	Our crew sets up and supports every device	AI proctoring instead of a crew
PLATFORM The same in every model	ExamX authors, delivers, proctors, grades and reports in all four models.			
FITS Where it works best	Universities and exam venues	Institutions that prefer to own hardware	Campuses where students carry tablets	Online programs, hiring and certification

From Greatify · Our software on your devices · Yours

PRICING

Pricing follows the exams you run, per student per exam or per student per year. Managed tablets need no upfront hardware cost.

GET STARTED

Run one exam with us.

Pick one exam from your calendar. We set up the platform, bring tablets and crew if you need them, and you see every answer sheet ready for grading within minutes.
